

eHub ECC Cabinet

Dynamic Management

Dynamic management of charging pile group, to ensure orderly and safe charging, the transformer does not overcapacity

Multi-functional

Supports PV inverter, ESS, EV charger connections and communications

Intelligentize

Photovoltaic, energy storage, charging, power grid, "4-in-one" intelligent energy balance and scheduling, to maximize the efficiency of green energy use

eHub ECC Cabinet

Performance	Rated Operational Voltage	400VAC±10%
	Maximum Rated Power	370kW
	Rated Current	630A
Communication	RS485	4 channels
	CAN	2 channels
	Ethernet	2 channels, 10/100 Mbps
	4G communication	LTE-CAT4
Environmental	Operating Temperature	-20°C - 50°C
	Humidity	5% ~ 95%
Mechanical	Ingress Protection	IP 54
	Installation	Vertical arrangement
	Dimension (WxHxD)	600 x 800 x 2,000 mm
	Weight	160 kg
Cyber Security	Security Level	IEC 62443 4-1
Regulation	Certificate / Compliance	CE Certificate, IEC 61493-1 2020(pending)
